WESTERN UNION IS OPPOSED TO UNIONS

President Carlton Says Men Are Discharged When They Join Union Organization

Chiengo, April 12.—President New comb Carlton, of the Western Union Telegraph company today told the fed-eral relations commission that it was becoming the general policy of his cor-poration to discharge men for belong

ing to unions.

He declared the Western Union em-

ployed 40,000 workers.

In the opinion of President Carlton nothing should be allowed to interfere with the workings of an institution like the Western Union. He furnished figures showing that the company is capitalized for \$100,000,000 and that its average yearly earnings were \$40,000,000. He was unable to give the annual net earnings offhand. The door, he asserted, was always open for employes with grievances and in about 60 per cent of the complaint cases the decision was rendered in favor the the employe. Cross examining the witness, Chair-

nan Walsh asked; "Did your company in 1908 demand that the United Press terminate its agreements with the unions under threat of having its leased wires taken away from it?"

"I can't say about that," replied the itness, "That was before I became witness. president."

Walsh announced that Belvidere Brooks, former president of the West-ern Union, would be called as a witness and interrogated on that subject. Carlton explained the welfare work of the Western Union, enlarging on the rest room system, pensions for deserv-

ng employes, etc. Questioned by Walsh he said: "I admit that these features are not a substitute for proper wages. Tele-graph operators undoubtedly are under-paid. They should make more than they

Walsh asked Carlton to name the
